January 12, 2022

John P. Magill, President  
National Republican Capitol Hill Club  
300 First Street SE  
Washington, DC 20003

Dear John,

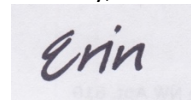

I am writing in reference to the March for Life Action Capitol Hill Club Breakfast scheduled for January 21. The anti-abortion organization March for Life Action, along with its partners, allies, and various anti-abortion groups and individuals from around the country, are planning to convene for a fundraising event with members of Congress at your establishment on that day. This event is in apparent violation of Mayor's Order 2021-148 unless prominent featured guest Rep. Marjorie Taylor Greene (R-GA), who refuses to be vaccinated for personal reasons, is either barred from entry or is able to provide proof of having taken at least one COVID vaccine dose.

Rep. Greene is widely known to scorn vaccines. As she said on Newsmax, "I refuse to wear a mask ... I am not vaccinated. And I will be standing strong, standing up for the people across this country that refuse to get vaccinated." In addition, it is quite possible other featured guests may not be vaccinated. For example, Rep. Yvette Herrell (R-NM), Tweeted in response to Mayor's Order 2021-148, "We CANNOT allow crazy authoritarians to lock the American people out of THEIR capital city with unnecessary and unscientific mandates!" As reported on KVIA-TV, she previously positioned COVID vaccine as an "alternative" to the horse de-wormer Ivermectin, which the Centers for Disease Control said has led to reports of severe illness from poison control centers and the Food and Drug Administration has not approved as treatment for COVID.

The Capitol Hill Club website states, "The Club has made great efforts to maintain an environment of confidence during the pandemic," additionally noting "complete compliance with all DC regulations and CDC guidelines." As you are surely aware Mayor's Order 2021-148 takes effect January 15, and we urge you to take appropriate steps to resolve this matter in order to protect attendees, your team, and the public.

Thank you for your attention. I am also providing District of Columbia Mayor Muriel Bowser and March for Life Action president Jeanne Mancini a copy of this letter.

Cordially,

Erin Matson  
Executive Director  
Reproaction Education Fund
